So I'm off at 4:00.

Have a FB post almost ready re that stormwater wetland project. Have photos but need a couple q's answered by Peter.

Good discussion with Libby County people re: radio interview and I have to say I have good instincts on this thing so far. The thing I've been saying we need but I can't get an answer is exactly what they said the people will need to hear.

Do you know if I have to do some briefing material format for info I was getting to Paula re: Gina's visit? I guess I'll find out tomorrow. Damn I wish I were off.

They are acting like Waters will really hit on 2/19. I'll believe it when I see it but they seem pretty urgent.

I'll work on draft email to go to waters stakeholders tomorrow along with one-pager for libby and whatever else comes up.

Let me know if I'm pinch hitting for you on anything!

L.
